

## Be Seen, Be Safe This Halloween

Your customers deserve a Halloween that is as safe as it is fun... Make sure it is by providing Hi-Vis Products this year! AdCapitol provides a wide variety of fun hi-vis items. Because we are a manufacturer, we can add reflective stripes to any product we construct. We can also use fluorescent colors on your print to make your product "pop."

### Incorporating some simple precautions on Halloween can help keep children safe:

- Wearing reflective tape, using glow-sticks or carrying a flashlight can raise the chance that drivers will see a child before it's too late...
- Cross at corners, using traffic signals and crosswalks; look left, right, and left again.
- Watch for cars turning or backing up.
- Use sidewalks.
- Wearing well-fitting shoes reduces the chances of tripping or falling.

"Twice as many kids are killed while walking on Halloween than any other day of the year."
